

TRUSTS

Trusted Secure Data
Sharing Space

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 871481

TRUSTS, *Trusted Secure Data Sharing Space*

Innovation Action (IA), H2020 ICT-13-2018-2019

Supporting the Emergence of Data Markets and the Data Economy

January 2020 – December 2022

INTERNATIONAL DATA
SPACES ASSOCIATION

CENTRE FOR IT & IP LAW

Research Studios Austria
Forschungsgesellschaft

1 *Lack of trusted & secure platforms*

2 *Limited sharing of data*

3 *Diverging standards, quality & legal aspects*

Reinstate trust previously placed in the data market by developing ***a new platform using the experiences of two large national projects***

Fully operational & **GDPR-compliant** European Data Marketplace for personal & industrial use

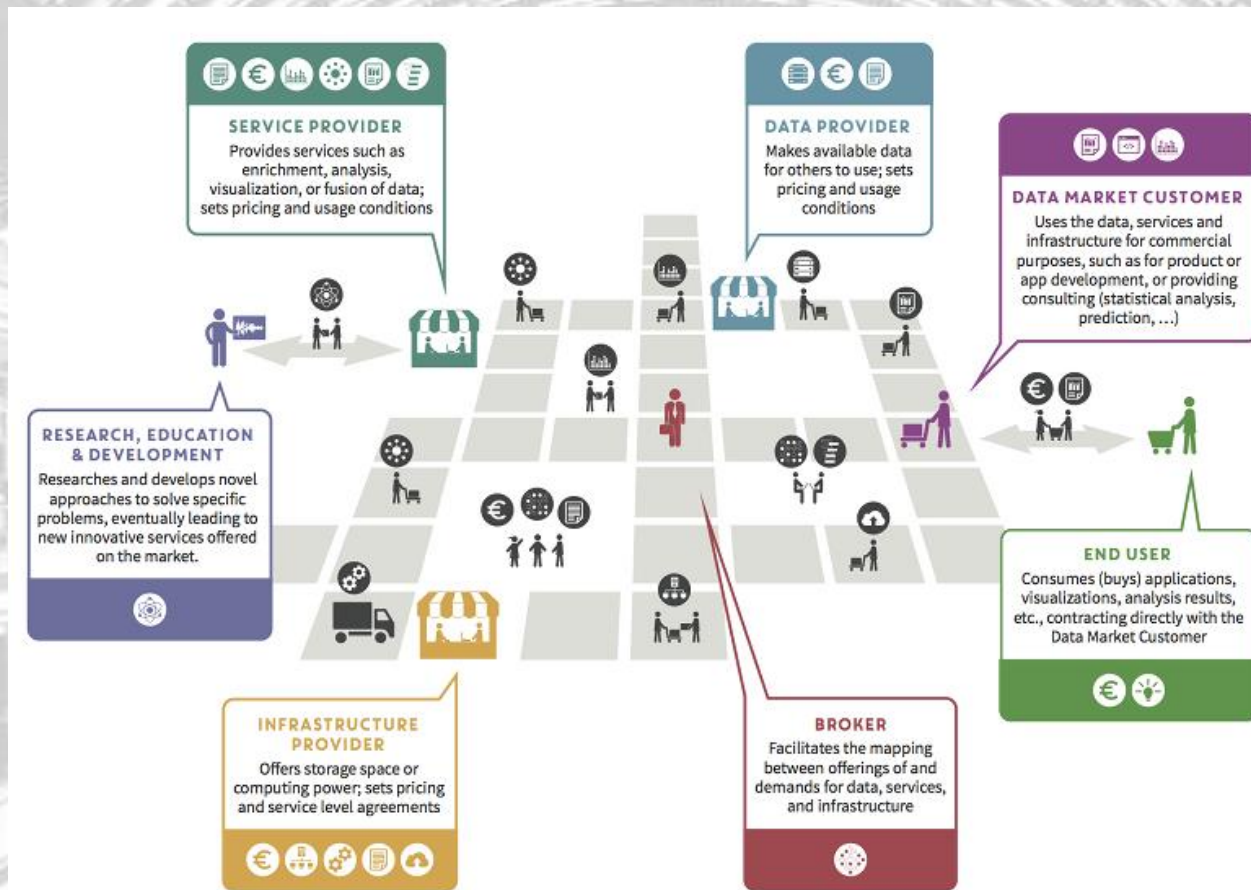

TRUSTS will:

Allow the **integration & adoption** of future platforms.

Act **independently** & as a **platform federator**

Investigate the **legal & ethical** aspects that apply on the entire data value chain, from data providers to consumers

Data market as a shopping mall for data

***Vision:
IDS is a global
de facto market
standard for the
sovereign use of
data***

Expected key innovations (incl. timeline)

1

Robust **legal & ethical** framework for the TRUSTS Platform to ensure **sustainability & compliance** with all relevant regulations & ethics principles

2

Sustainable business model & plan (incl. products & service portfolio, clear SLAs, pricing, billing etc.) for the TRUSTS Platform supported by a wide-reaching Data **Innovation Environment**

Anti-Money Laundering compliance

Agile marketing through data correlation

Data acquisition to improve customer support services
