

# Simple Data Sharing Approach

Trusts Lightning Talk  
03.06.2022, Vienna

Natascha Totzler, Productmanagement @nexyo

Let's start a data driven future:

We believe that we can create a new reality.

A reality in which data is connected and creates value and innovation.

A reality in which data becomes an ecosystem.

# Approach

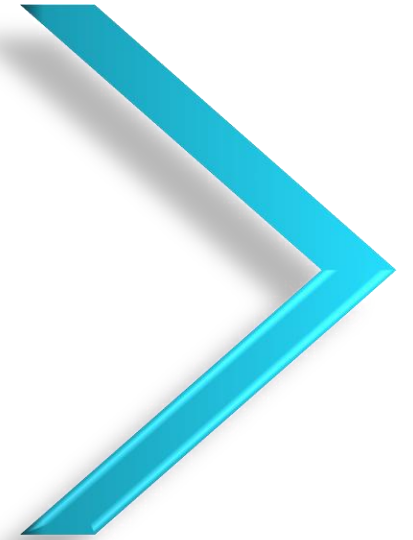

# Policies

- “These assets need to be deleted after 7 days”
- “Data can only be used for AI training”
- “Data needs to be stored in a C5 compliant cloud environment”
- “Data needs to be anonymized before further sharing”
- “Data cannot be used for ML Application”
- “Data must remain in Austria”
- “These assets should only be shared with my partners”

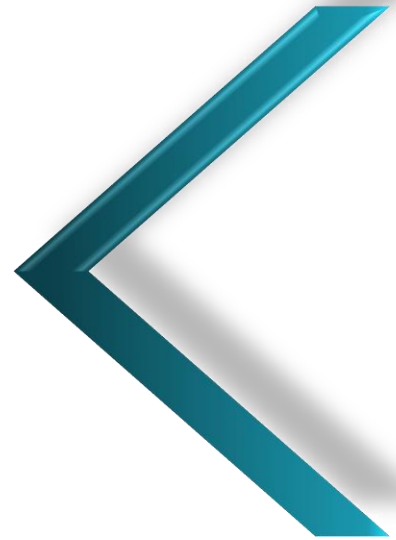

Tick Agreement

Enforced

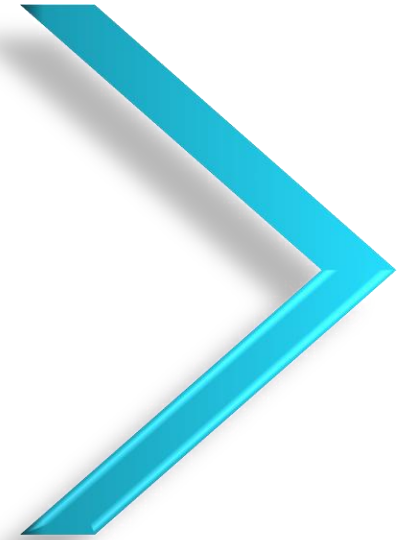

# Policies

What new possibilities opened up by enforceable policies?  
How can we create value out of it?  
Which use cases exist in reality?

We are looking forward to your input!
